

VS-(HPU)

Hydraulic Power Unit

The Vcare Security VS-(HPU), Hydraulic Power Unit can be customized to control most of the Automatic Bollards, Road Blocker, Arm Barrier and other system requires hydraulic power.

It comprises of electrical motor, hydraulic pump, bell housing, coupling, filters, relief valve, gauges, hydraulic oil tank with skid and below accessories:

- Sensors
- Hydraulic Oil Cooler
- Accumulator
- Manifold Block

All components would be mounted onto the power unit and be internally piped to a termination point prior to dispatch from our workshop.
