

VS-30-(F)-400S

Single Fixed Bollard

The **Crash Rated Shallow Mounted Single Fixed Bollard** provides high-impact vehicle protection with minimal foundation depth. Tested and certified to **ISO** and **IWA 14-1** standards, it offers proven performance for high-security applications.

Its **shallow foundation** allows quick installation with minimal site disruption, making it ideal for areas with underground utilities or restricted excavation.

- Bollard Diameter: 273 mm
- Height Above Ground: 900 mm
- Foundation Depth: 400 mm
- Options Available:
 - + Aesthetic Sleeve
 - + Removable Solution
